

Letter from the School Board Chair

From the School Board Chair:

This 2022-2023 school year is moving full speed ahead at Esko Schools. The end of the 3rd quarter, which is March 24th, will quickly be upon us with spring break following right behind. Conferences have been held and hopefully all parents have taken the opportunity to get briefed on how their students are progressing.

This year, like in past years, has been very successful at ISD 99. Students are very busy, not only in their academic achievements, but in extracurricular activities as well. Successful seasons have been realized in sporting events, concerts, and so many other areas too numerous to mention..... The positive atmosphere is starting to take shape as we are getting further into our sportsmanship initiative. A huge thank you to all the students, spectators and all of the families in the district for helping to make this initiative a success.

Work is still progressing on the fitness center. Again, one of the main reasons that was identified in our community breakout groups, is to move the existing facility outside of the school with an outside entry for the public. This is not only for ease of access for the community, but also enhances school security for the students and staff at EHS. Plans have been adjusted in the past few months to not only improve the usability of the new facility, but to also stay within the budget that the school can afford, using your tax dollars wisely.

If you aren't a regular reader of the school board minutes, you probably aren't aware of one of the items under the consent agenda. We have many individuals and businesses that contribute financially to the success of many groups within the school. I want to take this opportunity to thank them for their support. Many of these programs are very expensive to run and without their help, funding would fall short to provide the success that these programs have enjoyed. We are very grateful for all of the support from our community members whether it's financial or by attending many of the events that are held daily. I truly believe the community support for our students is one of the reasons that our programs are so successful. Thank you for all you do for our students.

Esko Stepping Stones and School Readiness classes help children prepare for kindergarten and become enthusiastic learners. Our program also helps children learn to build relationships with similar aged peers; and learn to follow routines and rules in a classroom setting. They will gain experience with science, math, art and music. Our students will also get much exposure to literacy through books and writing lessons.

Esko School Readiness Discovery is a new addition to our programming this coming Fall. This class will be a bit more of an exploratory class, focusing on STEM skills. This class will involve extra field trips throughout the school year. This can be a class to take in addition to the School Readiness class or just taken on it's own.

Congratulations to Esko High School's One Act Play Cast

After placing second at the Subsection and first at the Section competitions, nineteen Esko High School students, along with two directors, participated in the One Act Play State Festival on Friday, February 10, at O'Shaughnessy Auditorium on the campus of St. Catherine University in St. Paul. Eight schools representing each of the competition sections in the state of Minnesota presented high quality plays. The Minnesota State High School League One Act Play Festival does not involve direct competition. Judges rate the plays according to specific criteria including pace, blocking, costuming, and projection of the play's meaning. Each production is limited to 10 minutes of stage preparation/set up and 35 minutes of actual performance. After watching and individually critiquing the eight dramatic productions, the panel of judges rated four of them "starred performances". Esko High School was one of the recipients, with our performance of The Inexplicable Chaos Factor of Mia Gregory, written by Emily Hageman and produced by special arrangement with Stage Partners. Starred performance ratings are determined by private balloting of the judges. This was the first "starred" rating in three state appearances for Esko's One Act Play program.

Congratulations on a fantastic and very successful One Act Play Season! Bravo!!

THANK YOU, ESKO

From Maggie Sunnarborg,

A heartfelt THANK YOU to everyone that voted for me. I am humbled and grateful .

Our school is the heart of this community and I am proud to be a part of it.

I am looking forward to working on our 10 year plan where I see us getting better and stronger.

Thanks again for the support. It was much appreciated.

My apologies for missing this in the last issue of Esko's Corner. Maggie sent it to me right away, and I missed printing it.

Esko's Corner Update

I want to thank you for reading Esko's Corner. We are working on transitioning the paper to an online format with a limited number of printed copies available at all of the school offices, the Community Education office and Mike's Cafe & Pizzeria. We are also working on developing an email list to send out the paper electronically to anyone wanting the paper in their inbox. We appreciate your patronage of the paper over the years and thank you for your understanding of this publishing change. With increased costs of printing the paper and postage, continuing with the current model of distribution is simply not financially feasible to the community education program.

Conferences

Parent/Teacher Conferences were held on Wednesday, February 1 and Wednesday, February 8. We enjoy conferences as a time to meet, share and grow together as a school community. Our relationships with our families help us create an environment that is student centered and focused on meeting the needs of each child here. Thank you for your attendance at your child’s conference. It’s a big deal!

MCA Testing

The MCA testing season is among us for grades 3-6. Our students in grades 3-6 will take the MCA Reading Test on April 25 and 26. The MCA Math Test will be administered on May 2 and 3. The MCA Science Test will be on May 9 for 5th graders only.

It is very important that the students get a good night’s sleep each night and that they eat a healthy breakfast in the morning. Please help ensure that your child is rested and prepared for each and every school day. Also avoid appointments or family trips on these testing dates. It’s imperative that the students are here on these days.

Elementary Teacher Requests

We will follow the same process as we have done in the past for Teacher Requests. There is a Teacher Request Form that will need to be filled out if you wish to request a teacher for your child for next year. This form can be picked up in the elementary office starting Monday, April 3. One form will need to be completed for each teacher request (one per student). This form must be completed in full and turned into the office by Friday, April 28. There may be some cases in which a teacher request cannot be accommodated. Requests made after April 28 will not be granted.

Future Kindergarteners and Parents

It is time to get ready for school!
If you have a child who will be five years old on or before September 1, 2018, please join us on Tuesday, March 21. Kindergarten Round-up will take place in the Theater at 5:30 pm. Please join us and meet the elementary staff and learn about the wonderful learning opportunities offered at Winterquist Elementary School. Children do not need to attend this meeting. It is purely informational for the parents. If you know of any out of district families that may be interested in attending kindergarten in Esko, please let them know they are welcome to join us. Interested families can reach us at 879-3361.

Weather Closing		up-to-date. Make sure the message is going to a number or email address that you are able to check throughout the day. If you have any questions about the instant messaging system please contact Amber Fisher at 879-4673 ext. 625.
The winter season is already upon us. It is time to revisit what the school district will do on days that conditions make it difficult to open and run school.		There is always the possibility that you won't receive the information that school is closing. This is especially true when schools close unexpectedly for utility issues and parents aren't watching for a closure. You are encouraged to develop a family emergency plan for your student if they were to go home and you aren't there for them.
When it has been decided that school needs to be closed we will send this information out through our instant messaging system. The message will then be communicated to the local TV stations and WKLK radio out of Cloquet. The message will be posted on our school web page too.		
WDIO 10		The family emergency plan could include family members to call, neighbors to go to for assistance, additional keys or ways to get into the home safely and additional measures to ensure your child is safe if they return home and you are not able to be there. Plan for the unexpected.
