Directions: Place a check mark next to each item that accurately describes the student.

Cog <u>nit</u> ive	Language/Academic
poor comprehension of material	difficulty decoding words
poor short-term memory for verbal stimuli	poor reading comprehension
poor short-term memory for non-verbal stimuli	difficulty rapidly naming words/objects
poor long-term memory	difficulty recognizing words
limited attention span	poor listening comprehension
difficulty understanding oral directions	difficulty with oral reading and substituting one
difficulty understanding written directions	word for another
difficulty following a sequence of directions	uses gestures instead of words
difficulty recalling story sequences	difficulty producing rhymes
difficulty reasoning abstractly	poor spelling
difficulty conceptualizing material	difficulty writing compositions
misunderstands material presented at a fast rate	poor grammar/sentence structure (oral or written)
delayed oral response time	difficulty naming common objects (word retrieval)
uses problem strategies inefficiently	articulation errors
learns very slowly	poor expressive language
forgets newly learned skills	uses non-verbal language
forgetful/loses assignments often	understands non-verbal language
requires excessive re-teaching	does not retain math facts
•	poor math computation skills
Social/Behavioral	limited math problem solving skills
avoids doing work in class	fluctuating academic performance
gives up easily	does not perform academically when exposed
difficulty beginning tasks on time	to conventional teaching strategies
difficulty completing tasks on time	
asks questions constantly	Perceptual/Motor
is impulsive	poor auditory perception (appears not to hear or
trouble starting and continuing tasks	understand directions)
trouble with transitions	poor handwriting (labored, illegible)
☐ lacks focus	has clumsy or awkward movements
difficulty working independently	right/left confusion
difficulty playing quietly	poor gross-motor coordination
is easily distracted	poor fine-motor coordination
doesn't seem to listen	difficulty putting objects in correct sequence
shows aggressive behaviors	difficulty remembering sequence
shows disruptive behaviors	difficulty transferring information onto paper
talks excessively	reversals of letters (beyond 2 nd grade)
interrupts others often	reversals of numbers (beyond 2 nd grade)
speaks out of turn	bumps into or touches others more than is typical
difficulty remaining seated	difficulty remaining seated at a desk
doesn't participate in class	poor desk posture
difficulty interacting with peers	disorganized art projects
few friends	inaccurate copying
overly emotional	poor page organization
needs frequent encouragement	difficulty staying on or between lines
difficulty organizing materials/desk	
trouble being accepted by peers	
withdraws from group	
☐ inappropriate emotional response to social situation ☐ isolates self ~ on the fringe	

DOCUMENTATION OF SCIENTIFICALLY RESEARCH BASED INTERVENTIONS
